It is estimated that the anthracite coal tonnage of the various companies this year as compared with last year to the end of September shows a shortage of 3,000,000 tons. After having spent a most enjoyable evening, the party broke up wishing Miss Shirley many more happy parties.

The program at the Comique last night was without doubt the best combination of pictures ever seen in this city. "The Dieppe Circuit of 1908," the grand automobile race, is simply great. The pictures were taken at the most perilous points of the course, showing the huge racing machines making the curves at the rate of a mile a minute. Three of the machines are completely wrecked, not being able to make the sharp curves at such a high rate of speed. The other picture, "The Inexperienced Cabby," is a corker. A couple start out in a line carriage and finish up riding on one wheel.
